2.3 Reason for discontinuation

With the world’s widest selection of switch products it is critical that we keep our Portfolio current and relevant to our customers. The above listed part numbers P4SA3M combination was created for some special customer demands some years ago but where not in our catalogue, so they are not as popular as our standard parts. As such they are no longer commercially viable to produce and will be EOL with replacement 2 possible close alternatives:

Close Alternative (1): Same layout but different actuator.

The difference between the P4SA3M version and replacement(1) B2SA3M version is: P4 version is hard actuator 3.96mm, while the B2 version is the soft actuator 2.24mm.
